Summary — Experienced mobile engineer with deep expertise in Flutter and cross-platform development. Demonstrated history of elevating application quality through thoughtful architecture and modern development practices. Skilled at breaking down complex technical challenges and implementing seamless mobile solutions that balance user needs with technical excellence. Seeking opportunities to drive technical innovation through senior mobile engineering or leadership roles while continuing to architect smart solutions that advance mobile development.

Skills

Languages	Dart, Swift, TypeScript	**Tools**	GitHub, Figma
Frameworks	Flutter, React Native, SwiftUI, UIKit, NextJS	**Development**	Mobile App Development, Web Development
Cloud	Google Cloud, AWS		

Experience

CNDO — Mar 2024 – Jun 2024
Senior Mobile Engineer (contractor) — *Germany*

- Consolidated 50+ cloud functions into streamlined API infrastructure in 3 weeks
- Slashed home screen load time by 80-93% (from 15-20s to 1-3s) through optimized data fetching
- Resolved 18 long-standing API errors by implementing a comprehensive error-handling system
- Led technical architecture decisions and documentation efforts across the team
- Optimized app size by 40% through better asset management and code splitting

Scholarly — Jan 2024 – Mar 2024
Full-Stack Developer (freelancer) — *Singapore*

- Eliminated user sign-up blockers through BLoC architecture implementation, resolving critical authentication errors
- Reduced code quality issues by 95% (from 2,200 to ¡100) by implementing Very Good Ventures analysis lints and enforcing type and null safety
- Reduced app startup time by 27% through lazy loading and optimized asset delivery
- Engineered dynamic email notification system with deep linking, achieving 23% click-through rate
- Led code review processes and mentored a junior developer in Flutter best practices

Kreios — Oct 2023 – Jan 2024
Senior Flutter Developer (freelancer) — *Luxembourg*

- Accelerated development timeline, completing project 1.5 months ahead of schedule
- Orchestrated communication between Flutter, Django, and client teams, achieving 100% sprint delivery targets
- Engineered conditional data visualization system implementing 5+ user privileges with optimized caching
- Participated in technical architecture decisions and contributed to system design documentation
- Built offline data persistence using Hydrated BLoC, maintaining user access to critical features without internet

TiQuest — Oct 2021 – Oct 2023
Flutter Developer (contractor) — *Luxembourg*

- Reduced null-related crashes by 63% through comprehensive Flutter migration and null safety implementation
- Developed cross-platform data synchronization system handling 200+ merchant IoT devices
- Developed Flutter MVP banking app processing 10K receipts daily, delivered in 3 weeks
- Achieved 99.9% crash-free sessions through robust error handling and monitoring

Education

Ankara University — 2020 – 2024
Bachelor of Computer Engineering — *Ankara, Turkey*
GPA: 3.39/4.0

Certifications

- Node + Express + MongoDB - Backend development certification

Languages

- English: Fluent
- Turkish: Bilingual
- Arabic: Native
